

# Guldmann would like to invite you to...

## Early mobilisation in the ICU

When a person is hospitalised and forced to spend long periods in bed, it can have serious consequences on his/her health and well-being.

A look at how a ceiling hoist system can make early mobilisation a practical reality...

- Brief presentation of Time to Care and the Guldmann “Transfer – Treatment – Training” approach
- Repositioning in bed
- Sitting on the edge of bed
- Transfer from bed to chair
- Sit to stand
- Walking the “3 first steps”

| Time to care |
